

Complexly
Missoula, MT

To whom it may concern:

Hello! My name is TJ Koziol, and I am very interested in the opportunity presented by your SciShow Videomaker position, as seen on Jobs in Nerfghteria. I believe that my education in Film and Media Studies, coupled with my experience in multi-media and technical production will make me a very competitive candidate for this position.

While I am well rounded in all aspects of video production, I excel in post-production and videography. I have grown my video and design skills through many years of freelance work while developing coordination and managerial skills through full-time employment. For samples of my work, including my reels and design portfolio, please visit the [portfolio](#) page of my personal website.

In addition to my technical skills, I am also proud of my ability to solve problems creatively; I enjoy taking on new challenges and finding creative solutions. I am quick to learn new skills and adapt to changing situations. I have the determination and drive to excel in anything I set out to accomplish. I believe strong communication skills are vital in any team environment along with the ability to work hard independently.

I would like to thank you for considering me as part of your organization. I understand you must receive many applications, but I would love the opportunity to be a part of the Complexly team. Thank you for your time, and I look forward to hearing from you.

Don't forget to be awesome (Not that you need reminding)! 😊

Best,

TJ Koziol
